Semi-Annual Index of Technical And Semi-Technical Refinery Articles

January-June, 1933

Asphalt, Road Oils, Road Materials	Issue and Page Number
Dr. Lederer warns against selling poor oils	Jan. 4, p. 19
Time ripe to push road oiling program, by Paul Truesdell	Jan. 11, p. 23
Liquid asphalt road material specifications proposed	May 17, p. 40
Coubrough lube-asphalt process developed by Lummus	June 7, p. 25
Cracking	
Continental Oil to revamp stills	Mar. 1, p. 14
Gasoline Products, Universal Oil, Sinclair cracking patent settlement	Mar. 15, p. 24
Dr. Forward patents acquired by Doherty Research	April 12, p. 33
Pennzoil's new reforming unit; design and power innovations, by Arch L. Foster	April 26, p. 35
Reforming naphthas; once-through operation gives better results, by E. J. LeRoi and H. W. Ferguson	May 17, p.120
Rapid strides in refining research; cracking, experimental plants; once-through cracking of Mid-Continent gas oil, by Arch L. Foster	May 24, p. 21
Lachman treating, multi-coil cracking at new Globe plant, by Arch L. Foster	June 7, p. 26
Detonation, Knock Rating and Knock Testing	
A. S. T. M. votes on C. F. R. anti-knock test method	Jan. 25, p. 24
Knock rating for Diesel fuels proposed	Feb. 1, p. 15
A. S. T. M. mail ballot shows opposition to revised C. F. R. knock test	Feb. 8, p. 16
Refiners urge lower Ethyl standard under new Motor test method, by Arch L. Foster	Feb. 15, p. 17
New Motor knock test method winning in A. S. T. M. ballot	Feb. 22, p. 16
C. F. R. and Motor knock test methods to be arbitrated	Mar. 8, p. 36
Acid treatment effect on octane values of cracked gasoline, by Sidney Born	April 5, p. 23
W. P. R. A. to vote on octane grades, by Arch L. Foster	April 12, p. 22
Correlation of laboratory knock test results with actual road knock; by W. V. Hanley and W. H. Paul	May 3, p. 31
Anti-knock testing of gasoline, N. P. A. paper by H. F. Huff	May 24, p. 12
Distillation	
From cheese-box to vacuum tower in Pennsylvania, by Arch L. Foster	Mar. 15, p. 71
Principles of rectification, by George A. Burrell and Nelson C. Turner, Part I	Mar. 22, p. 26
Part II	April 19, p. 25
Part III	May 31. p. 23
Part IV	June 14, p. 35
Petroleum Distillation Corp. may offer licenses soon	April 5, p. 28
Petroleum Distillation Corp. plans co-operative pooling of patents	May 3, p. 23
Refiners to consider Petroleum Distillation Corp. patent plan	May 10, p. 17
Reforming naphthas; once-through operation gives better results, by E. J. LeRoi and H. W. Ferguson	May 17 p.120

Lubricants and Lubrication	Issue and Page Number
Extreme pressure lubricants; what they are and why they are needed	Jan. 25, p. 42
Composition of auto lubricants and their application, by Arch L. Foster	Jan. 25, p. 48
Extreme pressure lubricants talked at S. A. E. meeting	Feb. 1, p. 15
Top lubes given 10,000,000 mile test in buses, by J. C. Chatfield	Feb. 8, p. 31
Bureau of Standards gives views on top oiling	Feb. 22, p. 18
Motor lubricants talked at A. S. T. M. meeting	Mar. 22, p. 22
Use of phenol as solvent in refining lubricating oils, by R. K. Stratford, H. H. Moor and O. S. Pokorny	Mar. 29, p. 17
Correction on Stratford, Moor, Pokorny article	April 5, p. 28
Dichloroethyl ether, Chlorex, used as selective solvent in lube manufacture, by J. M. Page, Jr., C. C. Buchler and S. H. Diggs	April 5, p. 35
Top cylinder lubes; by D. H. Foster	April 12, p. 66
Paraflow action on lube oils, by J. Britton	April 26, p. 29
Solvents will play important part in Pennsylvania lubes, by G. A. Burrell	May 10, p. 21
Viscosity-temperature, zone-gravity classification of lube oils, by C. M. Larson and W. C. Schwaderer	May 10, p. 25
Govers Benzol Acetone Process	May 17, p. 38
New solvent methods of wax removal from distillates, residuals; S-N and Govers processes, by Arch L. Foster	May 17, p. 36
Grease manufacture; rate of cooling is factor, by Francis J. Licata	June 7, p. 23
Coubrough lube-asphalt process developed by Lummus	June 7, p. 25
Wax removal processes discussed at A. P. I. meeting; Govers, Trichlorethylene solvent, filtering, solvents	May 24, p. 21
Function and evaluation of extreme pressure lubricants, A. P. Frame paper at N. P. A.	May 24, p. 12
Viscosity measurement, Dr. H. V. Hume paper at N. P. A.	May 24, p. 12
Improving lubes by wax removal, review of E. R. Lederer paper	May 24, p. 22
Advances in lube manufacture to be talked at Pennsylvania Grade Crude Oil Assoc. meeting	June 21, p. 20
Motor and Other Fuels (See also Detonation Knock Rating and Testing)	
Premium qualities of gasoline, Dr. G. G. Brown enumerates	Jan. 4, p. 64
Mid-Continent Petroleum, Vickers, selling lubricated gasoline	Jan. 18, p. 11
Motor fuel from grain, farm relief proposal	Jan. 18, p. 15
Use of grain alcohol in motor fuel involves difficulties	Jan. 25, p. 25
Lubricated gasoline development caused by rising gum content, by F. Alex Nason	Feb. 1, p. 25
More about top oiling	Feb. 1, p. 46
Iowa has bill for mixing motor fuel with 10% grain alcohol	Feb. 8, p. 16
Top lubes given 10,000,000 mile test in buses, by J. C. Chatfield	Feb. 8, p. 31

Semi-Annual Index of Technical And Semi-Technical Refinery Articles

January-June, 1933

Asphalt, Road Oils, Road Materials	Issue and Page Number
Dr. Lederer warns against selling poor oils	Jan. 4, p. 19
Time ripe to push road oiling program, by Paul Truesdell	Jan. 11, p. 23
Liquid asphalt road material specifications proposed	May 17, p. 40
Coubrough lube-asphalt process developed by Lummus	June 7, p. 25
Cracking	
Continental Oil to revamp stills	Mar. 1, p. 14
Gasoline Products, Universal Oil, Sinclair cracking patent settlement	Mar. 15, p. 24
Dr. Forward patents acquired by Doherty Research	April 12, p. 33
Pennzoil's new reforming unit; design and power innovations, by Arch L. Foster	April 26, p. 35
Reforming naphthas; once-through operation gives better results, by E. J. LeRoi and H. W. Ferguson	May 17, p.120
Rapid strides in refining research; cracking, experimental plants; once-through cracking of Mid-Continent gas oil, by Arch L. Foster	May 24, p. 21
Lachman treating, multi-coil cracking at new Globe plant, by Arch L. Foster	June 7, p. 26
Detonation, Knock Rating and Knock Testing	
A. S. T. M. votes on C. F. R. anti-knock test method	Jan. 25, p. 24
Knock rating for Diesel fuels proposed	Feb. 1, p. 15
A. S. T. M. mail ballot shows opposition to revised C. F. R. knock test	Feb. 8, p. 16
Refiners urge lower Ethyl standard under new Motor test method, by Arch L. Foster	Feb. 15, p. 17
New Motor knock test method winning in A. S. T. M. ballot	Feb. 22, p. 16
C. F. R. and Motor knock test methods to be arbitrated	Mar. 8, p. 36
Acid treatment effect on octane values of cracked gasoline, by Sidney Born	April 5, p. 23
W. P. R. A. to vote on octane grades, by Arch L. Foster	April 12, p. 22
Correlation of laboratory knock test results with actual road knock; by W. V. Hanley and W. H. Paul	May 3, p. 31
Anti-knock testing of gasoline, N. P. A. paper by H. F. Huff	May 24, p. 12
Distillation	
From cheese-box to vacuum tower in Pennsylvania, by Arch L. Foster	Mar. 15, p. 71
Principles of rectification, by George A. Burrell and Nelson C. Turner, Part I	Mar. 22, p. 26
Part II	April 19, p. 25
Part III	May 31. p. 23
Part IV	June 14, p. 35
Petroleum Distillation Corp. may offer licenses soon	April 5, p. 28
Petroleum Distillation Corp. plans co-operative pooling of patents	May 3, p. 23
Refiners to consider Petroleum Distillation Corp. patent plan	May 10, p. 17
Reforming naphthas; once-through operation gives better results, by E. J. LeRoi and H. W. Ferguson	May 17 p.120

Lubricants and Lubrication	Issue and Page Number
Extreme pressure lubricants; what they are and why they are needed	Jan. 25, p. 42
Composition of auto lubricants and their application, by Arch L. Foster	Jan. 25, p. 48
Extreme pressure lubricants talked at S. A. E. meeting	Feb. 1, p. 15
Top lubes given 10,000,000 mile test in buses, by J. C. Chatfield	Feb. 8, p. 31
Bureau of Standards gives views on top oiling	Feb. 22, p. 18
Motor lubricants talked at A. S. T. M. meeting	Mar. 22, p. 22
Use of phenol as solvent in refining lubricating oils, by R. K. Stratford, H. H. Moor and O. S. Pokorny	Mar. 29, p. 17
Correction on Stratford, Moor, Pokorny article	April 5, p. 28
Dichloroethyl ether, Chlorex, used as selective solvent in lube manufacture, by J. M. Page, Jr., C. C. Buchler and S. H. Diggs	April 5, p. 35
Top cylinder lubes; by D. H. Foster	April 12, p. 66
Paraflow action on lube oils, by J. Britton	April 26, p. 29
Solvents will play important part in Pennsylvania lubes, by G. A. Burrell	May 10, p. 21
Viscosity-temperature, zone-gravity classification of lube oils, by C. M. Larson and W. C. Schwaderer	May 10, p. 25
Govers Benzol Acetone Process	May 17, p. 38
New solvent methods of wax removal from distillates, residuals; S-N and Govers processes, by Arch L. Foster	May 17, p. 36
Grease manufacture; rate of cooling is factor, by Francis J. Licata	June 7, p. 23
Coubrough lube-asphalt process developed by Lummus	June 7, p. 25
Wax removal processes discussed at A. P. I. meeting; Govers, Trichlorethylene solvent, filtering, solvents	May 24, p. 21
Function and evaluation of extreme pressure lubricants, A. P. Frame paper at N. P. A.	May 24, p. 12
Viscosity measurement, Dr. H. V. Hume paper at N. P. A.	May 24, p. 12
Improving lubes by wax removal, review of E. R. Lederer paper	May 24, p. 22
Advances in lube manufacture to be talked at Pennsylvania Grade Crude Oil Assoc. meeting	June 21, p. 20
Motor and Other Fuels (See also Detonation Knock Rating and Testing)	
Premium qualities of gasoline, Dr. G. G. Brown enumerates	Jan. 4, p. 64
Mid-Continent Petroleum, Vickers, selling lubricated gasoline	Jan. 18, p. 11
Motor fuel from grain, farm relief proposal	Jan. 18, p. 15
Use of grain alcohol in motor fuel involves difficulties	Jan. 25, p. 25
Lubricated gasoline development caused by rising gum content, by F. Alex Nason	Feb. 1, p. 25
More about top oiling	Feb. 1, p. 46
Iowa has bill for mixing motor fuel with 10% grain alcohol	Feb. 8, p. 16
Top lubes given 10,000,000 mile test in buses, by J. C. Chatfield	Feb. 8, p. 31

	Issue and Page Number
Grain alcohol-gasoline blend bills introduced in Congress	Feb. 15, p. 14
Top oiling; Bureau of Standards gives views	Feb. 22, p. 18
Determination of paraffin and naphthene content of gasolines, by Clarke C. Minter	Feb. 22, p. 25
Besher grain alcohol-gasoline campaign boosted by Peoria clubs	Feb. 22, p. 53
Iowa grain alcohol-gasoline proposal tabled in Congress	Mar. 1, p. 11
Lubricating gasolines; Mid-Continent refiner conducts road tests; by Arch L. Foster	Mar. 1, p. 26
Alcohol-gasoline one of many farm relief plans in Washington	Mar. 8, p. 18
E. B. Reeser favors alcohol-gasoline blending	Mar. 15, p. 29
Alcohol-gasoline blend sales spread in Illinois; distillation chart	Mar. 22, p. 16
Gasoline treating and inhibitors, by Arch L. Foster	April 12, p. 25
Alcohol-gasoline blends would cause economic losses by Gustav Egloff	April 26, p. 30
Ethyl Gasoline Corp. offers "Q" anti-knock compound to refiners for use in regular gasolines	April 19, p. 11
Problems for marketers in selling alcohol-gasoline blends, A. P. I. paper by Dr. George Granger Brown..	May 24, p. 32
Diesel fuels; ignition quality determination by modified C. F. R. engine, by A. G. Marshall	May 24, p. 24
Exhaust gas analysis as a method of determining carbon content of gasoline, by Clarke, C. Minter	June 28, p. 33

Natural Gasoline

Union Oil posts field prices according to gravity	May 10, p. 8
Vapor lock research before N. G. A.; volatility work of Dr. Brown; vapor capacity of auto fuel systems; anti-knock rating of vapor recovery blends; excess volatility disposal, by Arch L. Foster	May 17, p. 31
Natural gasoline important Mid-Continent product	May 17, p.108

Oil Treatment (See also lubricants and Lubrication)

Caustic soda still indispensable in refining, by John F. Middleton	Jan. 18, p. 29
Modern refining methods; treating light distillates, Part I, by Arch L. Foster	Jan. 18, p. 34
Part II	Jan. 25, p. 60
Part III	Feb. 1, p. 22
Acid treatment effect on octane values of cracked gasoline, by Sidney Born	April 5, p. 23
Gum inhibiting index shows efficiency, by W. W. Scheumann	April 5, p. 29
Gasoline treating and inhibitors, by Arch L. Foster	April 12, p. 25
Results of brucite treatment of light distillates; by E. C. Higgins	April 12, p. 26
Lachman treating, multi-coil cracking, at new Globe plant, by Arch L. Foster	June 7, p. 26

Paraffin Wax and Other Products

Atlantic Refining Knowles coke ovens solve residuum disposal problem, by Arch L. Foster	Mar. 8, p. 26
Many specialty products made at Mid-Continent refineries, by Arch L. Foster	May 17, p.111

Plant Control and Modernization

Modernization and financing are big problems of 1933, by Arch L. Foster	Jan. 4, p. 7
Obsolescence; causes of; accounting phases, by Henry W. Ralph, Part I	Dec. 28, 1932 p. 29
Part II, property records; depreciation	Jan. 4, p. 27
Part III, building replacement funds..	Jan. 11, p. 27
Calculations for design of bubble tower foundations, Part I, by By Wayne C. Edmister	Feb. 15, p. 35
Part II	Feb. 22, p. 27
Part III	Mar. 1, p. 35
Basis of refinery equipment design challenged by new facts at A. C. S. meeting, by Paul Truesdell	April 5, p. 12
Gasoline treating and inhibitors, by Arch L. Foster	April 12, p. 25
Pennzoil's new reforming unit; Arch L. Foster	April 26, p. 35
Welding refinery equipment	June 7, p. 62
Small Mid-Continent refiners modernizing plants rapidly	June 7, p. 21

Refining General

Caustic soda still indispensable in refining, by John F. Middleton	Jan. 18, p. 29
Research program at Penn State College, by Arch L. Foster	Mar. 15, p. 59
From cheese-box to vacuum tower in Pennsylvania, by Arch L. Foster	Mar. 15, p. 21
Principles of rectification, Part I, by George A. Burrell and Nelson C. Turner	Mar. 22, p. 26
Part II	April 19, p. 25
Part III	May 31, p. 23
Part IV	June 14, p. 35
Imperial Oil has new refrigeration method for stored gasoline	Mar. 29, p. 24
Gum inhibiting index shows efficiency, by W. W. Scheumann	April 5, p. 29
Gasoline treating and inhibitors, by Arch L. Foster	April 12, p. 25
Isolation of pure hydrocarbons from petroleum to be talked at A. C. S. meeting	April 5, p. 68
Many specialty products made at Mid-Continent refineries, by Arch L. Foster	May 17, p.111
War's demand speeded Mid-Continent refining, by Lawrence E. Smith..	May 17, p. 45
Rapid strides in refining research; by Arch L. Foster	May 24, p. 21

Specifications (See also Detonation, Lubricants, and Motor Fuels)

New revised commercial standards for fuel oils accepted	Mar. 15, p.118
Naphtha initial boiling point not to be lowered in Nebraska	Mar. 1, p. 65
Refiners urge lower Ethyl standard under new CFR motor test method, by Arch L. Foster	Feb. 15, p. 17
Gasoline specifications proposed by W. P. R. A.	April 12, p. 22
Volatility index may be put into motor fuel specifications	May 24, p. 17

N. P. N. Semi-Annual Author Index

January-June, 1933 Author — Title	Issue and Page Number
Born, Sidney—Acid treatment effect on octane values of cracked gasolines	April 5, p. 23
Buchler, C. C.—Dichloroethyl ether, Chlorex, used as selective solvent in lube manufacture	April 5, p. 35
Burrell, Col. George A.—Principles of rectification, Part I	Mar. 22, p. 26
Part II	April 19, p. 25
Part III	May 31, p. 23
Part IV	June 14, p. 35
Solvents will play part in Pennsylvania lube manufacture	May 10, p. 21
Chatfield, J. C.—Top lubes given 10,000,000 mile test in Greyhound buses	Feb. 8, p. 31
Cooley, C. B.—Range oil burners may open new market for oils	May 17, p. 33
Diggs, S. H.—Dichloroethyl ether, Chlorex, used as selective solvent in lube manufacture	April 5, p. 35
Edmister, Wayne C.—Calculations for design of bubble tower foundations, Part I	Feb. 15, p. 35
Part II	Feb. 22, p. 27
Part III	Mar. 1, p. 35
Egloff, Dr. Gustav—Alcohol-gasoline blends would cause economic losses	April 26, p. 30
Ferguson, H. W.—Once-through operation gives better results in reforming naphthas	May 17, p.120
Foster, Arch L.—Modern refining methods; treating light distillates, Part I	Jan. 18, p. 34
Part II	Jan. 25, p. 60
Part III	Feb. 1, p. 22
Extreme pressure lubes; what they are and why they are needed	Jan. 25, p. 42
Composition of auto lubricants and their application	Jan. 25, p. 48
Refiners urge lower Ethyl standard under new Motor test method	Feb. 15, p. 17
Lubricating gasolines; Mid-Continent refiner conducts road tests	Mar. 1, p. 26
Knowles coke ovens solve residuum disposal problem for Atlantic Refining	Mar. 8, p. 26
Research at Penn State College furthers refining technology	Mar. 15, p. 59
History of Pennsylvania refining progress; from cheese-box to vacuum tower	Mar. 15, p. 71
W. P. R. A. to vote on octane grades under new Motor test method	April 12, p. 22
Gasoline treating and inhibitors talked at W. P. R. A. meeting	April 12, p. 25
Pennzoil's new reforming unit; design and power innovations	April 26, p. 35
Vapor lock research before Natural Gasoline Assoc.; meeting report	May 17, p. 31
New solvent methods of wax removal; S-N and Govers processes; A. P. I. reports	May 17, p. 36
Many specialty products made at Mid-Continent refineries	May 17, p.111
Special crudes selected for Mid-Continent lubes	May 17, p.106
Rapid strides in refining research disclosed at A. P. I. meeting; four wax removal processes	May 24, p. 21
Lachman treating, multi-coil cracking at new Globe plant	June 7, p. 11
Modernization of refinery and financing are big problems of 1933	Jan. 4, p. 7
Foster, D. H.—Carbon removal important in top cylinder lubricants	April 12, p. 66
Hanley, W. V.—Correlation of laboratory knock test results with actual road knock; knock rating variations in C. F. R. tests	May 3, p. 31
Higgins, E. C.—Results of brucite treatment of light distillates; gasoline sweetening	April 12, p. 26
Larson, C. M.—Viscosity-temperature zone-gravity classification of lube oils	May 10, p. 25
Le Roi, E. J.—Once-through operation gives better results in reforming naphthas	May 17, p.120
Licata, Francis J.—Rate of cooling factor in grease manufacture	June 7, p. 23
Middleton, John F.—Caustic soda indispensable in refining	Jan. 18, p. 29
Minter, Clarke C.—Determination of paraffin and naphthene content of gasolines	Feb. 22, p. 25
Exhaust gas analysis as a method of determining carbon content of gasoline	June 28, p. 33
Moor, H. H.—Use of phenol as selective solvent in refining lube oils	Mar. 29, p. 17
Nason, F. Alex—Lubricating gasoline developed by rising gum content	Feb. 1, p. 25
Page, J. M., Jr.—Dichloroethyl ether, Chlorex, used as selective solvent in lube manufacture	April 5, p. 35
Paul, W. H.—Correlation of laboratory knock test results with actual road knock; knock rating variations in C. F. R. tests	May 3, p. 31
Pokorny, O. S.—Use of phenol as selective solvent in refining lube oils	Mar. 29, p. 17
Ralph, Henry W.—Obsolescence; Part I, causes of; accounting phases	Dec. 28, 1932 p. 29
Part II, property records; depreciation	Jan. 4, p. 27
Part III, building reserve funds for replacements	Jan. 11, p. 27
Scheumann, W. W.—Gum inhibiting index shows efficiency of inhibitor	April 5, p. 29
Schwaderer, W. C.—Viscosity-temperature zone-gravity classification of lube oils	May 10, p. 25
Smith, Lawrence E.—War's demand speeded Mid-Continent refining industry; review	May 17, p. 45
Speare, L. F.—Range oil burners may open new market	May 17, p. 33
Stratford, R. K.—Use of phenol as selective solvent in refining lube oils	Mar. 29, p. 17
Truesdell, Paul—Time ripe to push road oiling program	Jan. 11, p. 23
Basis of refinery equipment design challenged by new facts at A. C. S. meeting	April 5, p. 12
Turner, Nelson C.—Principles of rectification, Part I	Mar. 22, p. 26
Part II	April 19, p. 25
Part III	May 31, p. 23
Part IV	June 14, p. 35
